WORK EXPERIENCE

Sr. Business Analyst
June 2026 – Present

Skylark Soft Limited, Dhaka, Bangladesh

- Gathered and analyzed business requirements from clients and stakeholders to identify operational needs and system improvement opportunities.
- Translated business requirements into functional specifications, workflow diagrams, and software requirement documentation.
- Analyzed existing business processes and recommended ERP-based solutions to improve operational efficiency and productivity.
- Collaborated with development, QA, and implementation teams to ensure software solutions aligned with business requirements.
- Conducted client meetings, requirement-gathering sessions, and gap analysis to identify system configuration and customization needs.
- Supported ERP software implementation, including system configuration, user acceptance testing (UAT), deployment, and post-implementation support.
- Prepared user manuals, functional documentation, and training materials, and delivered end-user training to facilitate effective system adoption.
- Monitored implementation progress, coordinated issue resolution, and maintained communication between clients and technical teams to ensure successful project delivery.

Project Manager
December 2024 – June 2026

Global Mission IT, Chittagong, Bangladesh

- Maintained the official GM IT website, implementing updates and adding new features to enhance performance and functionality.
- Supervised software product development including inventory, accounting, and e-commerce systems, ensuring timely delivery and functional quality.
- Directed end-to-end course development in programming, app development, cyber security, digital marketing, and design, ensuring content aligned with global industry demand.
- Collaborated with influencers and You-Tubers to strengthen course credibility and expand audience reach.
- Researched and evaluated emerging technologies to guide course roadmap and company tech adoption strategy.
- Reviewed course materials, coding projects, and UI/UX deliverables for quality assurance and student usability.
- Coordinated with instructors, developers, and designers to maintain on-time delivery of projects and learning modules.

Mobile App Developer (Project Based)
June 2022 – February 2025

Khelboo, Chittagong, Bangladesh

- Developed the mobile app UI for Khelboo using React Native.

Full Stack Developer
November 2022 – December 2024

Kaf Tech BD, Chittagong, Bangladesh

- Worked with developers, quality assurance, and customers to resolve technical issues.
- Analyzed proposed technical solutions based on customer requirements.
- Trained and mentored junior developers and marketing team to improve overall team performance.
- Developed and maintained in-house projects like E-commerce and Customer Tracking Solution.

Project Manager E-commerce (Project Based)
December 2021 – May 2022

SIMCO MART, Chittagong, Bangladesh

- Designed and developed the E-commerce website and executed & implemented the project.
